NAVIGATING THE INNOVATION FUNDING LANDSCAPE

Without capital, a business will not grow. For your company to successfully secure innovation funding, it is very important that you plan ahead, and, in some cases, many months ahead. Here are a few tips that will assist you become more successful at securing innovation funding.

Plan Ahead by Building an Innovation Funding Road Map: The best place to start is to map out the funding programs that meet your requirements. Just like planning a trip, a road map assists us most effectively and efficiently takes in the best sites and assures us that we don't miss anything.

Strategic Timelines assists you build an innovation funding road map that provides you with the information that you need so that you won't miss out on important funding programs that could provide financial leverage for your development and commercialization journey. Next step is to determine the most cost effective and efficient way to move forward to secure innovation funding.

Execute on 3 Key Strategies for Securing Innovation Funding: If you don't have a winning strategy for securing innovation funding in this competitive environment, you need one. Besides assisting you prepare a winning funding submission, Strategic Timelines assists your company with 3 additional strategies that have the impact required to get the funder's attention.

The Difference Between Preparing a Funding Submission vs Writing an Application: Many businesses think that securing innovation funding is about 'writing' an application. With fierce competition for funding, a submission needs to be prepared to include your business plan, marketing / sales plan, financial projections, market assessment & competitor analysis to prove out your business model. Funding agencies need to be assured that your innovation will add to Alberta's and Canada's economy. Think about preparing a funding application with the same acumen and effort that you'd expend for financing or investment submissions. (These same supporting documents are required for financing and seed capital submissions which we can assist you with as well.)

WHY STRATEGIC TIMELINES INC.?

Strategic Timelines Inc. assists manufacturing, engineering, technology & technical firms build strong and sustaining business foundations for launching their initiatives whether they are **Starting, Growing, Funding or planning for Exit.**

Brief Background: When the consultancy was first started in 1987, many clients were manufacturing companies who needed assistance preparing applications to secure large government grant programs to support their technology developments and/or ISO implementation. These clients also required market research, competitor research and customer research to assess the feasibility of bringing new products or services to existing and/or new markets. In the late 1990's and into 2000, consulting services focused on assisting micro to mid-size professional services, engineering, technical & technology companies build strategic business plans, operating (action) business plans, and, marketing strategies & plans for immediate execution supported with follow-on coaching.

Today's Focus: Strategic Timelines works exclusively with technology driven businesses to assist them secure innovation funding, financing and investment – and as importantly, build sound business and marketing plans for generating revenues. Key to successfully securing funding is your company's growth potential supported by sound business and marketing strategies, and, run by proven managers (and/or coached by proven advisors) with the capabilities to execute to get results.

Our Approach: We specialize in preparing winning innovation funding submissions along with the required supporting documents with impactful content and strategies. The supporting documents required for most funding submissions are your up-to-date business and marketing/sales strategies along with your Business Plan, Operations Plan, Marketing/Sales plan, and, your 3 Year Financial Statements and 3 to 5 year Financial Projections – all supported by market assessment and competitor analysis to prove out the business model as well as serve as a road map for building a sustaining, growing business. **This approach significantly increases the odds of your company securing funding, financing and/or investment.**

Education & Specialization: Eileen Ashmore, MBA, CMC is a **Technology Funding Specialist.** Over the last 30+ years, Eileen has worked with hundreds of B2B companies. Eileen has an MBA specializing in Marketing & Distribution Systems & holds the Certified Management Consulting (CMC-Canada) designation. With Eileen Ashmore's expertise and experience with B2B-SME's, you'll become quickly oriented to what you need to do to move forward to capitalize on opportunities while shoring up your weaknesses.

Prior to working in the management consulting industry, Eileen worked in the personal financial planning field and as a stock broker with RBC Dominion Securities.

Volunteer History: Past volunteer with the Salvation Army, Toastmasters and Medical Mercy Canada.
